OUTCH! Mr. Outch!

DUNN & BRADSTREET 'INVESTIGATES'

Paul D. Outch, Dunn & Bradstreet Reporter

England proceeds more smothly to regiment public opinion in America in its own favor than the blundering Bund. The first object of English propaganda has been achieved: to make Americans believe that in selfdefense they must become the arsenal for England in its war for world dominion.

The second object is to make America believe that it must PAY for England's war and also furnish the man-power.

To achieve this, England must watch the American press and suppress any free editorial campaign against their second object.

THE BROOM Is a Thorn In Her Side

England is being governed by influential Jews who hold key positions. Jews either have power directly in their hands as for example the war ministry is held by Hore-Belisha; or else the confidential secretaries of the high muckamuks are Jewish.

While the New Deal is Jewish, still there are enough Christian patriots left in America who do not enjoy being victimized in the proposed war to put the Jews back in power in Germany by making war on Hitler.

The general run of the American press does not dare show the connection between orthodox, Talmudic Jews, the Polish Jews, Communism and the New Deal. Any such mention is being suppressed and the writers are fired, like James McMullin was fired from the National Whirligig column for stating the facts in Europe. But here and there some weekly editor or magazine dares bring out the truth in the matter. Naturally, such freedom of expression must be suppressed at any cost if the British-Jewish propaganda is to succeed to achieve its second object, where America is to foot again the bill for the war and supply the man-power, too.

Dunn & Bradstreet

In short succession the French consulate and Dunn & Bradstreet became very much interested in THE BROOM. The French vice-consul was ordered to call on us, but he got to see only Mrs. de Aryan, so Paul D. Outch, reporter, investigator and general spy for Dunn & Bradstreet followed up.

Mr. Ouch appeared at Roy Akers' printshop asking to see the editor of THE BROOM. Roy wasted no time on him, so he came back when we happened to be in. Presenting us with his card by way of introduction:

"You know who Dunn & Bradstreet are, Mr. de Aryan? I am representing them and would like you to answer a few questions. You know we are credit investigators and I received two calls: one to investigate THE BROOM and another to investigate C. Leon de Aryan."

"As far as my credit is concerned, Mr. Outch, you can save yourself the trouble. I am asking nobody for credit. All my business is strictly cash. Im giving no credit and am asking for none."

"But what shall I report, then, about you?"

"That's your headache, not mine."

"I found a record that Mrs. de Aryan filed proceedings for a divorce", ventured Mr. Outch.

"Yes, she filed, but has not prosecuted the suit."

"Then its merely a separation, but no divorce?"

"What has that to do with the business in hand?"

"But I must report something about you. You are the editor of THE BROOM, are you not?"

"Yes, I am."

"You are also the owner, but Mr. Akers does the printing?"

"Yes, that's the way it is."

"How much circulation have you?"

"1750 weekly."

"I know that the subscription price is $2.50 a year, I heard it last night over the radio."

"Keep on listening on the radio and you will get the rest of the information."

"But won't you tell me more about yourself? What did you do before you started THE BROOM?"

"What has that to do with my credit?"

"It would be so nice if I could report that you are a native American patriot, you know, please tell me all about yourself."

"Don't make yourself foolish, you are not a reporter for Who Is Who. When Who Is Who get ready to publish my biography, I might write one for them but not for Dunn & Bradstreet. Good day, Sir."

ONLY 1 NEWSPAPER FAVORED COLONIES IN REVOLUTION

MORRISTOWN, N. J., — The New Jersey Journal, reputed to be the only newspaper favoring the Colonial cause during the Revolutionary war, was distributed again Oct. 12 during ceremonies marking the 200th anniversary of the founding of Morris county, site of many of events of the Revolution.

* * * *

History Repeats Itself

There was only one newspaper that dared oppose England and side with the revolting colonists against British greed and tyranny, but just the same the Americans succeeded, and so there is only one newspaper in this county today that dares oppose and expose British greed, tyranny and calumny all the way and all the time, to protect the America of today against becoming England's cats paw once more.

Outch, Mr. Outch! Not even Y. A. Jacques and the CIO could stop us when they foreclosed the mortgage on the printer and took his printing equipment away because he refused to obey their orders to stop printing the BROOM. We put the cash down on the line for the first payment on another press and equipment and The Printer is rid of the old mortgage and Y. A. Jacques. Good riddance to bad rubbish! we mean Jacques.

UNHAMPERED BY DOUBT

Parsley contains two or three times as much vitamin C as do citrus fruits. — From a report to the American Chemical society.

That decorative greenery
I've always felt was scenery,
And shyly I've evaded it
In fear of etiquette.

I've dodged that verdant shrubbery
In any fancy grubbery.
As well, though I, do bite from chops
The little pantalette.

I've poked it surreptitiously;
I've buried it quite viciously;
And with apparent carelessness
I've eased it to the side.

I've learned to push and dribble it,
What though I've yearned to nibble it,
The prey to inhibitions which
Have scared my manly pride.

But rehabilitation's here!
My soul's emancipation's here!
Let Freedom ring! I never more
Will peck at it by stealth,
For by it's stem I'll bobble it
And, unashamed, I'll gobble it
And condescendingly explain
I'm eating for my health.

ED FLETCHER'S STRATEGY
Who Tells Fletcher What To Do?

While the daily press carried large advertisements announcing that State Senator Ed Fletcher favored the Oil Prorate Bill and was going to speak in favor of No. 5 over radio station KFSD, suddenly, on the morning of the scheduled appearance, cryptic advertisements appeared in the daily press stating the Hon. Senator was "not ashamed" of his vote on the bill but that he would not sepak over the radio as scheduled.

Ordinary folks could not make out what it all meant. They called us up and we started an investigation .

The advertisements were inserted by the local committee for No. 5, headed by Paul Richie and Francis Gleeson. At their headquarters I was told that the Senator was favorable at first to appearing on the radio to uphold his vote for the Olson bill, which he had cast in the state senate. On the strenght of it the committee received the authority from Los Angeles to feature the Senator and pay the expense. But much to their surprise, Senator Fletcher suddenly called off the whole matter stating that he intended to run for Congress and that his "strategy committee" advised him against speaking for No. 5, since it was going to be defeated at the polls. Hence the Senator backed water and refused to support his own vote in the senate with an appearance before the mike as first arranged.

The greatest surprise in this change of heart was in store for those who arranged for the broadcast when they discovered the identity of Ed Fletcher's "Strategy Committee".

It is none else but the famous "Scotty" McLeod in person.

"Scotty" is the representative of the "liberal business men's" organization. He also writes for THE HERALD and advocats "liberal" policies for the benefit of the underworld. He is the genius who guides Senator Ed Fletcher's "strategy" in the attempt to "draft" the dear Senator for congress. Ed is working awfully hard to get himself drafted, he has even joined hand in glove with the saloons, the gamblers and the prostitutes and takes his advise from "Scotty", their spokesman in and out of season.

We wish Senator Ed Fletcher all the luck in the world, he'll sure need it to get himself "drafted". If he imagines that San Diego is as rotten as Los Angeles was under Mayor Shaw, so that the Senator has to ally himself with the unde world to be "drafted", he'll need some more light on the subject and we shall certainly throw plenty of light his way.

Ed Fletcher has been telling his friends that he and "26 votes" in his family will be thrown for the Olson Oil pro-rate bill.

On every occasion Ed sports those 26 Fletcher votes. He is as liberal with them as he is with inviting people to his cabin at Cuyamaca Lake. Were they to take him at his word, he would have to build several hundred cabins to accommodate them all.

CHEER UP

Have a song and smile
It is always worthwhile,
And if still things go wrong
Just keep up with your song.

In the long run we win,
If we keep up the chin,
And accomplish our best
Climbing up to the crest.

ELECTION RETURNS

SAN FRANCISCO,—Returns from more than 97 percent of 11,193 special election precincts in California, showed the following unofficial vote:

Proposition	Yes	No
1.—Ham-Eggs	972,018	1,876,435
2.—Chiropractic	781,938	1,841,774
3.—Loan Sharks Control	1,807,847	724,196
4.—Loan Sharks Control	1,804,597	709,967
5.—Oil Control	1,075,773	1,715,915

SAN DIEGO,—The complete unofficial count on the five propositions is as follows:

	Yes	No
1.—Ham & Eggs	40,256	72,700
2.—Chiropractic Education	32,086	73,327
3.—Loan Sharks Control	65,033	35,634
4.—Loan Shark Control	65,405	34,315
5.—Olson Oil Prorate	36,685	74,858

'DE AYRAN COMMENTS'

Thursday 8:15 p. m., Nov. 9, 1939 - K G B

First Lord of Squirrel Island

I received an early Christmas Greeting card from my good Friend Frank C. Hughes, from Squirrel Island, Maine. It shows a lovely view of the small harbor at Squirrel Island and a boat manned by Capt. and First Lord of the Squirrel Island fleet: Hughes and crew. The card bears the notation saying, "it is mailed early for one never knows what F. D. R. will do about changing dates or anything else."

Leave Teachers Free To Teach

This is education week. You are supposed to visit the schools, think and talk education. If the higher-ups would only let the school teachers alone, the children might get some intelligent education that would fit them for practical things in life. But in our modern jitterbugs schools the higher-ups are always inventing some new and jittery theory which they want tried out on the children in place of teaching them plain fundamentals and discipline. Did you know that school teachers must not instruct the children in simple things, such simple matters as multiplication table, and proper handwriting. They do, of course, teach the children but, they do it in everlasting fear of being called down to the office and getting a lecture about being old fashioned. You see, the child is not to be told directly what he must do and must know. He is supposed to find it out for himself. By the time 40 children

Declared a legal paper of general circulation for the County and City of San Diego, by Superior Court order, January 15, 1932.

Entered as second-class matter March 27, 1931, at the postoffice of San Diego, California, under the Act of March 3, 1879.

WHO IS YELLOW?

"He that feared for his life — and denied Me — he shall lose it. He that confesses Me before men — and lost his life — he shall win it.

"He that dared not confess ME before men, neither shall I know him before My Father who is in heaven.

"He that is not with ME is against ME."

* * * *

SOMEWHERE in the U. S. A. Nov. 1, 1939.

Kosti: —

When the Tribe goes to War! everyone must line up! !

I know its hard and there is no hurry: you are O. K. so far but I know your tendencies — **to martyrdom!**

I am not that way. I'd rather be a live Economist, say like your friend Beckwith, than a dead martyr, say like your friend Graham.

You like a scrap for its own sake. I like one only as a means to a very definite end.

Yours truly, etc, —ECONOMIST

* * * *

My dear "Economist":

"When the tribe goes to War! everyone must line up ! !"

And I do, on the side of Christ. What's wrong with that? Is the Tribe more powerful than God? Would I not be a fool to line up with murder? ! and reap the consequences? What good has it done the Tribe when they marched forth to "get the Kaiser"? Plenty of dead ones, cripples, depressions, one after another and now the Bosses of the Tribe want more of the same.

I lined up, then, with Christ and kept out of it and I am lining up now with Him and let's see what happens.

I am very curious to find out what happens to a man in these U. S. A. who actually, in deed *and in spirit, is lining up with* Christ.

We know what happened to them in Jewish Palestine and in Communist Russia; we know what happened to them in Germany; now I am going to find out what happens to one in the U. S. A., the overpublicized "democracy" that ain't so.

Moses vs. the Tribe

When the Tribe lined up in the desert before their Golden Calf, did Moses line up with the Tribe? He was a white man.

When the Tribe lined up to "throw off the yoke of Rome", did Jesus line up with the Tribe? He was a white man.

Why do you expect me to be yellow?

What is called "martyrdom" is such to the fools on the outside. A white woman prefers death to prostitution, she cannot choose otherwise and be true to herself. A white man takes death to dishonor, he has no choice in the matter. What white man would choose between God and Moloch and take Moloch? Only the yellow Tribe takes Moloch, Mammon and Mars. The white man remains proudly the Aryan, which he is and he serves no yellow tribal gods.

To even suggest to a white man one of Aryan blood, to line up with the yellow Tribe, merely because they have invaded Spain and Poland and now New York, that he yield his religion and worship their god of murder, revenge and rape, is an insult in itself and while you mean well, it is resented, nevertheless.

I have always been able to paddle my own canoe and I will thank you to keep your suggestions for the yellow tribe which bears Dutch and Germanlike monikers and is in power in Washington and New York, but has no power over any white man.

Whence does all power originate, but from God!

Why should a white man betray his God? Then only that the tribe has power over him.

Your friend Beckwith, like yourself, have substituted "Economics" for Religion and expect to solve all problems by babbling "economics."

I am an individualist and not a socialist, like Beckwith, yourself and Henry George. You fellows give lipservice to Individualism, but when it comes to practice: Henry George lined up with LaborISM, which is socialism, Beckwith lined up with the N R A and you are bowing to the treacherous tribe that rules New York and Washington.

I am still a white man, the same old de Aryan, of the white race, if you please; and I place my faith in God, who alone is my Master and no yellow tribe shall ever dictate to me.

A live man is one who knows God. For that is life eternal: To Know God.

QUEER AMERICANS

We do not like the war in China.
We say the Japs are most unfair.
The Chinese are such quiet people.
Why torture them with grim despair?

About five million lives have perished,
Since China suffered this attack.
Because the Japs are too ambitious —
They crudely throw out whack on whack.

So in the meantime commerce suffers,
And foreign nations will complain.
They do not like the inconvenience,
But hardly think about the slain!

It is disgraceful that we foster
This sad war, by selling arms.
We send the Japs great loads of rifles
To help them conquer China's farms!

What lowly morals we encourage
When we accept their filthy pay.
If we refuse the Japs our bullets,
The war might end without delay.

—Emelda Deshaies,

Editors Note: Same applies to Britain, France vs. Germany

None who loves God needs yield to Satan's domination, no more than a white woman needs yield to prostitution. The universe is ruled by Divine Power and the yellow tribe has power only over its slaves.

You may choose slavery, I choose liberty. My first allegiance is to God. That is my security. How else could I be secure?

Martyrdom

Martyrdom is nonsense. To the outsider he who chooses wisely between God and the Devil, is called a "martyr" because he dares stand out against the moronic tribe and take the consequences. But the outsider does not see the company the "martyr" is in.

What is life if one has to prostitute one's soul to please the powers that be? !

That's what is happening in Russia, in Germany, in France, in England and Canada, where no inalienable rights are sacred. If that is to come here, too, too bad for those in power, for they are doomed, they are damned before they started.

The Hereafter

Where is Woodrow Wilson? Where are the other Great Murderers of days past? Napoleon, Alexander and Constantine the Great ones, Attilla and Genghis Khan? They are rotted and their memory is rotten.

Today we have our opportunity to put up treasures in heaven which no thief can steal. He who dares stand out against the murderous yellow tribe that rules London, Paris and Washington, he is a man. He proves himself a freeman. What fool would one be to give his life on the battlefield against his own liberty, instead of giving it for liberty! When our life is at stake, rest assured I'll make a sacrifice for American ideals of liberty, not subservient to the murderous yellow tribe that perverts religion to make believe that God is not a God of Love but of murder: to enthrone the money bags.

What is all of time, what is all of life, if not a training ground for the hereafter?

Once we have tasted the fruit of liberty, of individual liberty to be our own master, who will return to slavery under the chief of the tribe? In Europe, while they give lipservice to "democracy", we notice that Russia is a slave to the chief. The same is true in England and France where the chief has lined up the tribe for war. They have never really been free men and women they were always "free" only on sufferance of the chief, who curtails their liberties at will.

But, he that drinketh of the well of liberty is free forever. That is what the Christ told the woman of Samaria. A freeman can never be enslaved. Why should one be afraid? The chief offers you the opportunity to murder and be murdered by the "enemy".

Your worst enemy is that chief, and the most he can do to you is murder you. The freeman choses to stand with Christ and confess Him before men, and hereafter he never has to be a slave.

Is it liberty that the "war heroes" are fighting for?

Why give up one's liberty with Christ expecting to get it by murdering someone else? All one gets then is more murder and more slavery. But he that endureth to the end and confesses Christ before men, whatever the chief of the yellow tribe might do to him, he is in good company forever after.

In fine, why should I worry? They are the criminals who mislead the tribe, let them worry! They cannot escape the Day of Judgment.

Sincerely, C. LEON de ARYAN.

OUR RENT HOG WORLD
By Geo. Cartwright

Chicago and Philadelphia

Speaking before the Food and Merchandising Committee of the Housewives' League at the City Club, Lea D. Taylor, . . declared, 'right now in Chicago starvation is digging the path for pneumonia and tuberculosis deaths to come. We call ourselves civilized, but, while we may be interested in starvation in China we are indifferent to starvation on the west side of Chicago. They are starving today—call it by no other name?

Philadelphia (so called City of Homes) feeds its 3,000 poor-house inmates for 15c a day—about the price of a can of medium grade dog food, less than one-third cost of feeding soldiers in the army, and only half the food allotment in their penitentiary.

N. B. Gov. Olson has been asked to include in prison investigation inquiry as to whether prison management makes a profit on meals, an incentive to feed any kind of swill to prisoners, perhaps while receiving ample money for good meals. A food strike is reported cause of the alleged flogging.

Double Cross

Wars are promoted to grab land; landholders pay no part of the cost, workers providing blood and taxes. "Look at the income tax—one-third of the income in Britain." say our Economic Loyalists and Britain's Tories. Income tax works differently on producers and parasites. The wealth producing auto or shoe manufacturers add the tax to cost of the article. The parasite, giving no human service, collecting $10,000 a month and UP per acre Land Rent for city, mining or oil land, merely gives up the one-third, income tax, for the privilege of embezzling the entire community-made public property. All income tax collected from producers and parasites is that much tax subsidy or relief to holders of unused land—tax free in Britain.

Echo From The Tomb

"I do not like to think of the day when bombing planes engaged in the killing of women and children, will be identified as the product of American manufacture," says Herbert Hoover, **most beloved of our ex-presidents.** And Herb, we don't like to think of the day when you turned tanks and gas and the regular army on war veterans in Washington asking for something to eat."—J. W. Raper, Cleveland Press.

Labor and War

"In the very nature of war's phychology labor would be virtually conscripted, collective bargaining made mockery or abrogated altogether. Workers may be confronted with a choice of starving or working where, when, and under what conditions they are ordered to work."—Robert. M. LaFollette, Jr.

Mayor LaGuardia, airplane pilot in the world war says, "there is no hope for the working people of those countries, no matter how it ends. They were not consulted when the war began. They will have nothing to say about when or how it ends."

Ludlow Amendment

"When the people asked for opportunity to vote before the nation went to war over-seas, it was the president who upheld the right of congress as against the people."—Robt. M. LaFollette, Jr.

Prayer Boners

Wisconsin legislature chaplain prayed the Almighty to properly punish lobbysists. A member arose protesting. The preachers union—ministerial association—threatened to strike if not permitted to pray as the need appeared.

A news item informs us a sign, "President Roosevelt's Church", was displayed for information of the public. A wag is reported to have added, "Formerly God's Church".

Latest from there, the parson who buttons his collar behind seems to have also got the eternal fitness of things on backwards. Instead of praying for Hitler, said to need prayer badly, he prayed for Britain Land Monopoly's Charlie McCarthy, King George.

Reasons of State

War promoters avoid war taxes and double-cross again, deserting in defeat. When Franco took Madrid all high-powered officials were in France with plenty of gold. King Zog fled Albania, not waiting for his wife and new born child. Ethiopia's Emperor, "Lion of Judah", went to visit the British Lion taking a big bank account with him. The "All Highest", Kaiser, rode hard for Holland. "For reasons of state", Napoleon deserted his defeated army in Egypt and beat it for France. With fast horses and sleigh he cut the freezing Russian wind, while his army died in the snow. Many a Polish boy, his mother and father died in Warsaw's shambles while the officials "for reason of state" accepted Romania's hospitality.

Scotch Thrift

"German air raids don't shatter Scotch thrift. After the Nazi attack on the Firth of Forth last week, Scots with real business sense, rowed out and collected fish killed by German bombs." —The Pathfinder.

FRIENDSHIP

The spirit of friendship and liberty
Is gaining ground every day.
The thought that we are of one brotherhood
Is steadily making its way.

The little seed which the Savior has sown
Was buried for many a year,
But now it has developed and grown
And thrives in the sunshine fair.

And storms and tempest uproot it no more
It's roots are too deep in the ground.
The message has finally reached the core
Men's hearts to the Infinite bound.

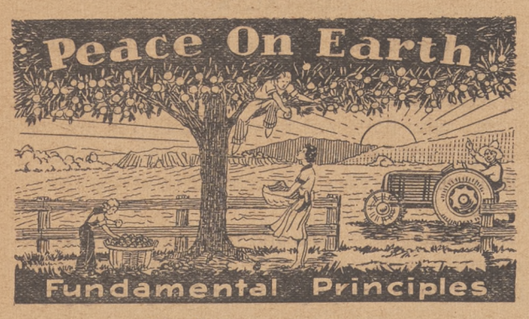
"In time of war prepare for peace!"



By C. Leon de Aryan

Religion is the master science which reveals the nature of man and his relationship to life.

Not till mankind appreciates that religion, to be such, is not hearsay, but must be known and proven as all science is, and applied and practiced; — that the truth becomes known about man's own nature and purpose here on earth.

de Aryan

He who thinks of religion only in terms of the Bible and what is purported to have taken place in the dead past, he is dead from the neck up anyway and has no inkling of religion, as such. He will easily become a prey of racketeers and suckerbaiters of all sorts, but he will never become acquainted with the truth about himself and his place in this universe.

Religion is positive knowledge, not something to be blindly accepted on what is falsely termed "faith". Only morons can be lured to "accept" religion on "blind faith", because they are incapable of thought. Religion is the Master Thought which guides and teaches all the secrets of life. How, then could it be ours if we failed to think for ourselves?

I Am The Lord, Thy God

The first principle of life is naturally: **Origin.**

Whence did we originate? Physically we come from earthly parents, but how about the living "I", the living Ego, the individual entity?

He who fails to trace his origin to the source and find his Creator, he is lost, always. He has no standard to go by.

Thus the first commandment to the religious student is to find his Creator. And naturally, upon study and concentration he notices that the same one THOUGHT exists wherever there are living beings, namely each being knows himself as "I". Since there cannot possibly be two, and divergent, sources of existence it follows that all thought originates in the "I".

And the mystery is solved for those who think. "I" am the Lord of creation, Thy God, and thou shalt not seek other (false) gods.

Thus the individual discovers the divine spark of thought in himself as the "I" which is identic in all living beings and before this Observer the panorama of life unfolds itself.

Without "I" there is no life. For this reason the philosopher spoke to the point when he said of a certain foolish ruler who threatened to hang him if he persisted in teaching the truth:

"I don't mind if he hangs me, as long as I am not there while it happens".

What good is the world to me, if I am not there?

That is the whole mystery of life and its origin, in a nutshell. I am the beginning and the end of life. Without me, there is no life.

The plainest and simplest of langnage and still people are looking for God elsewhere. God is the God of the living, in these temples not made by hand is where He dwelleth.

And Christ said: "Whatsoever ye doeth unto the least one of them, ye doeth unto Me".

Christ is present in every living being. He is the divine ego, the essence and seed of the Almighty in all that lives and breathes upon the face of the earth. Thus we all are children of the same One living God and His name is: "I AM".

Be still, thou little mortal mind, be still — and know that I AM — God!

Thus wherever we may be, I AM — the presence of God is automatic, and inescapable. He observes and records. You can fool your mortal mind and you may fool other mortals, but you cannot fool the divine recorder in your own self. I AM always present and notice all that is going on.

The wise man studies the divine law of being and teaches his mortal organism to conform to it and practice it in daily life, thus learning to fathom immortality.

Timely Comments is the name of our radio program when you are looking for it in the Union or Tribune. These two papers will not publish our editor's name in the radio log. The Sun and all other papers give the program as **de Aryan Comments.** Every Thursday evening at 8:15 over K. G. B.

AIRPLANE MODELS

Radio Talk over K F S D by Fred de Aryan

I built a five-foot rubber band model, out of an Air Trails magazine, designed by Lockton Park. It was the largest model I ever built, and flew very well, with a high time of two minutes. The orginal model had a time of thirty-five minutes. I have built thirty-five rubber models, five of which had a wing area of over two-hundred square inches.

One day when I went out to Hall's Airport, I met a man that has built miniature gasoline motors. I talked with him a while, and told him that I built rubber models, and that I wanted to build gas models. He replied, that if I would build a gas model, that he would make the motor.

I bought a "Zipper", a 1939 national contest winner, designed by Carl Goldberg. I will have it finished quite soon, and I hope to place it in one of the monthly contests held at Camp Kearney Mesa.

* * * *

Note: Radio station KFSD conducts a "Children's Poetry" program on Wednesdays, 4 to 4:30 p. m., arranged by Mrs. Nona Keen Duffy, County Penmanship Supervisor. Jamie Ericson furnishes organ music as a back-ground.

Boys and girls who listen in are invited to participate by sending in any creative writing that a listening audience would be interested in: music, plays, stories, hobbies and poems.

Teachers and other leaders of juvenile groups are cordially invited to send in the creative efforts of their youngsters.

The best are chosen each week for reading over the air, and individuals and groups are invited to the studio each week to read, sing or dance.

Rhythm bands, harmonica bands, and school songs are especially solicited.

Some tap dances are featured.

Poems by Mrs. Duffy are read at each broadcast, and many have been set to music. A copy of this music will be sent to any teacher sending in a request for one she wishes to teach her pupils.

Poems on any subject may be requested, and Mrs. Duffy will dedicate a selection to the child making the request.

The program was started January 6, 1939, and has proved popular with both adults and children. A thousand or more children have participated, and several hundred have been on the air.

Send all mail to Mrs. Duffy, care of radio station KFSD.

Four gills make one pint; two pints makes on drunk. One drunk makes trouble and a headache, which boosts the sale of aspirins.—The Ground Hog.

THE RUSSIAN BRAWL

S. D. Union Abuses Terms

"JUST WHAT SOME congressmen and other government officials hope to gain by becoming engaged in a wordy brawl with Russia is difficult to see. Violent exceptions taken by Representative McCormick of Massachusetts, to a speech made by Premier Mototoff who, in turn, criticized the President of the United States, accomplishes little besides bringing the American congress down to the level of the Soviet. . . .

"Nobody but a few **idealists** ever expected Russia to be worthy of American trust when the present administration finally put through official recognition a few years ago. . . . . "

The above quotations from an editorial in the San Diego Union reflect the ignorance of so many people who confound imbecility with idealism. Only an imbecile expects a government regime based primarily in savage lust of murder and the tyrannic exercise of power over half-savages, who execute the dictates of the tyrants, to be trustworthy. How can anything atheistic be trustworthy, how can a man who is faithles keep the faith?

An idealist is not one who expects an atheist and autocratic murderous regime to keep faith! Only New Deal imbeciles; only like is attracted to like. The Russian regime was recognized by Roosevelt because he felt his kinship with it. Neither keep the faith. Both have originated in the same mire and are wading towards the same bloody goal of murder and autocracy. Roosevelt now is trying to start an armament industry and embroil this country in European wars in a futile attempt at covering up his destructive administration and keep the people in "M" day slavery by creating hysterical war "emergencies".

An idealist is the exact opposite of Roosevelt and his cohorts among the braintrust and grafting politicians. An idealist follows God, keeps His covenants sacred and unbroken and does not rob and subject those entrusted to his care to the treatment Roosevelt is meting out to our people.

An idealist puts his faith in God, like George Washington, keeps out of foreign entanglements with criminal regimes and is no third termite.

LIQUOR PAY-OFF INDICTMENTS

How About The Policewomen? Who Paid?

William G. Bonnelli, member of the State Board of Equalization,—the autocratic thieving, lawless tax-extorters of California; —and six other persons were indicted by the Los Angeles county grand jury on charges of felony conspiracy in connection with alleged liquor pay-offs.

That's in Los Angeles. How about San Diego?

Who paid off to whom, in San Diego to have the policewomen removed! ? Such favors are not done for nothing. There is something awfully smelly about the way the Chief of Police and City Manager Rhodes are moving in a circle to keep the two poilcewomen off their night shifts in the booze emporiums. Rhodes lied to the representatives of the women's organizations when he said that two policewomen would be assigned to night duty to patrol the liquor places in conjunction with patrolmen. He does not have two policewomen on that detail. Why does he lie about it? Why does the Chief of Police use every dilatory and evasive measure to keep from putting the two policewomen on the job?

There is something rotten in this state of Denmark.

I am on the track of a widespread police conspiracy to protect criminals by letting them use aliases when apprehended in place of their true names and no entries are made for the record, showing the identity of those convicted. They cheat the city out of thousands of dollars of fines in this fashion. When Rhodes and Peterson forced me to investigate them and their conduct of the police department, since they refuse to employ conscientious policewomen, little did they dream that their sins would find them out.

SYPHILIS "HEALTH INSPECTION" RACKET EXPOSED

That the Food Handlers examinations are nothing but another politico-medical racket to collect fees, is shown by Johns Hopkins University professor.

Scoffs at Public Fears On Acquiring Syphilis

CAMBRIDGE, Mass.,—Dr. Joseph E. Moore, of Johns Hopkins university, says the public's fear of acquiring syphilis through the ordinary contact of every-day life was "grossly exaggerated". Asserting this applied to fear of acquiring the disease from household contact, from servants, in barber shops or beauty parlors, he told the New England post-graduate medical assembly of Harvard:

"Ninety-nine and nine-tenths percent of all infections with syphilis are acquired by means of one or another form of sexual contact and by this means only. The compulsory examination of domestics, cooks, waiters, barbers and beauticians is, therefore, wholly unjustified".

WHY SINGLE TAX HAS MADE SO LITTLE PROGRESS

By Whidden Graham

NEW YORK, — My criticism of the puerile and futile methods adopted by the followers of Henry George for spreading a knowledge of his principles of our order of human society, based on justice and freedom, have evoked several letters from Single Taxers, asking: "What have you to suggest, instead of those methods?" I had intended going further into details of the various ways in which those who have accepted the Georgist teachings have tried to attract others to the study of those teachings, and to give more illustrations of the folly and stupidity of the self-constituted "Single Tax Leaders" who for 50 years have been making themselves ridiculous by their antics. I have decided, however, that it would be a waste of good newspaper space, since the various S. T. "leaders" are so well wrapped up in their own conceit that they cannot understand my efforts to show them that they are following wrong paths toward the goal of economic freedom.

The fundamental point on which I have disagreed with the initiators of "movements" designed to bring about the adoption of the Single Tax, has been their failure to see that the educational campaign to accomplish this aim should be directed to the farmers of the nation. So far, practically everything that has been done by the various S. T. organizations has been aimed at the people of our cities and towns. Appeals have been made to businessmen and to what is termed labor, but with no practical results. Some businessmen have recognized the advantages of abolishing all taxes on industry and trade, but as a rule they are content to let our present crude and oppressive tax system prevail, as they believe that the taxes that they pay are nearly all shifted to the ultimate consumer.

So far as that vague term "labor" is concerned, meaning organized industrial workers, the S. T. propaganda has fallen on unhearing ears. When labor is told that in a social system based on Georgist principles wages would be higher; working hours shorter, and dwelling rentals lower, it listens, but cannot understand. The industrial workers' minds have been so poisoned by the queer notions of Karl Marx and other Solialists and Communists; — to the effect that there is an irrepressible conflict between what is called "labor" and what is wrongly called "capitalism", — that they simply cannot grasp the principle of free men in a free state. The workers think that something called "government" must step in and regulate industry, by prescribing wage rates, working hours and other regulations between employers and employed. This is essentially Socialism and so long as it is upheld by the great majority of the members of labor unions, they will not listen to any arguments for a better social system based on industrial freedom and private enterprise.

After 50 years experience of close contact with "labor movements", I am thoroughly convinced that there is not the slightest prospect that "labor" can be brought to understand that the solution of what is wrongly called the "labor problem" is only to be found in the application of the principles of industrial freedom and justice laid down by Henry George.

I therefore urge upon all those who favor those principles that they unite their efforts in an educational movement directed to the farmers of the nation. If there are Single Taxers with means they should establish publicity agencies that will reach the farm journals; country weekly newspapers, and farmer organizations. I firmly believe that in this way, and in this way only, can any substantial progress toward Single Tax ideals be made.

HGSS Should Whistle It

Since writing above regarding the best methods of conducting an educational campaign of behalf of the great principles of the natural order in the economic world, laid down by Henry George in Progress and Poverty, it has occurred to me that something might be done in that direction, as was done in the Anti-Slavery campaign 100 years ago, by public singing of songs against slavery. Here is my suggestion.

Local organizations of Single Taxers should be formed all over the country, to be called Henry George Singing Societies, of more briefly HGSS. These societies should meet as frequently as possible and join in singing songs appropriate to the subject. Where practicable, all present should join hands, thus forming a circle of enlightenment which they need badly. As a sample of the kind of songs that might prove to be useful in promoting a public interest in the great fundamental reform so urgently needed, I suggest this adaptation of Joseph R. Kipling's Bandan-log song:

Here we sit in a wonderful row,
Thinking of wonderful things we know.

Something wonderful, wise and good,
All to be done by wishing we could.

Now we are going to —? never mind,
Brother thy tail hangs down behind.

Hay, why, wow, wax,
Haliko, Baliko, Sing Gel Tax !

I have no doubt but that once the whistling HGSS is fairly launched many suitable songs will be evolved, and their singing will be at least as valuable propaganda as some of the methods now used by bright eyed Single Taxers.

Single Tax did not progress because no swing band leaders ever took it up in a "popular fashion". Its progress, so far, shows the poverty of genius of its promoters.

Ernie Pyle on Benbough

San Diegans had a good laugh when they read Ernie Pyle's column in the San Diego Sun concerning Hizoner Percival J. Benbough. According to Pyle everybody in San Diego loves the mayor. Evidently Pyle got his information from the underworld. A miracle happened there. Since election the HERALD and McLeod have turned to Benbough's support because his administration is giving the underworld everything they have asked for and could not get while George Sears was Chief of Police. Which goes to show that Pyle was right, only he got mixed up in the class of San Diegans who are one hundred percent for Hizoner.

—o—

Major Macauley Won Ham & Eggs Election

Another good hehaw for the delight of the insiders, was furnished in the San Diego Sun by its city editor, Dick Pourade.

In a front page feature story Dick told his readers how Major Macauley, secretary of the S. D. Chamber of Commerce, saved the state from the Ham & Eggers. Mac told George Crawford to take a census among 50,000 voters and discovered that a lot of them were not registered. So Crawford told them to register, this saved the election.

How marvelous! After spending oodles of money to take a house to house census, Macauley and Crawford discovered what they could have had free, for nothing, gratis, if they had only studied The BROOM carefully and listened religiously to our radio talks. Without any house to house canvas we told our audience to be sure and register, because those who had not voted at the previous election were holding the balance of power. And they did and Major Macauley saved the state!

Congratulations Major Macauley!

U. S. MADE 28 BILLION PHONE CALLS IN 1937

Canadians Outrank Americans in Average Conversations; Japan Second in Total Calls

During 1937, the last year for which worldwide figures are available, over twenty-eight billion local and long distance telephone calls were completed in the United States, as compared with a total of 26,800,000,000 for the preceding year.

This is equal to some 900 messages for every second of each day and night throughout the year, and is equivalent to more than 220 messages for every man, woman and child in the United States.

For the same period, the average calling rate for the world outside the United States amounted to only 15 messages per person.

Japanese Made Five Billion

Next to the United States, the Japanese completed the largest number of telephone conversations in 1937, their figures being over five billion. In third place was Germany, with more than 2,700,000,000. Canada was fourth with over 2,600,000,000, and Great Britain and Northern Ireland fifth, with a total figure of nearly 2,200,000,000. The same five countries led during the preceding year, but in the year Japan showed the largest increase in number of telephone conversations.

In addition to those five countries, Sweden, and probably certain other countries for which only incomplete data are available, had more than one billion telephone conversations during the year. Slightly below the billion mark was France, with 974,000,000 conv[illegible]ark

TAX COLLECTOR MAKES GOOD CONTACTS

Tax receipts are now well over $200,000,00. We have mailed out all tax bills where we have the correct address. We wish the property owners who have not received bills for any of their property would notify us at once by letter, telephone or in person at our office at the Civic Center.

By getting their bills and mailing their checks promptly taxpayers avoid possibly putting it off too late to escape penalties. Postponing paying until the last minute may result in putting it off a day too late. December 5th, the delinquency date on first installment of taxes, is only a month away.

Our mail remittances are averaging about 400 a day.

November 6, 1939. SAM A. CLAGGETT,
County Tax Collector.

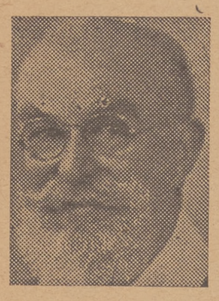
Health-Germs

By George Starr White, M. D.
Los Angeles, California
"YOUTH is a State of Mind
—Not a Time in Life."

THE SKIN BREATHERS

The temperature of the body is maintained to a great extent by the action of the skin. The skin acts as a light filter, a heat conductor and a water evaporator. If any of these natural functions be interfered with, trouble ensues.



Dr. Geo. Starr White

The skin needs an air-bath and sun-bath just as much as a water-bath. It is easier to give it the water-bath, so this great respiratory and energy-changing organ—the skin—is often crippled in its work.

Too much direct sunshine on the bared body will often produce a severe irritation and hinder Nature in restoring health. That is why I recommend specially-made fabric filters to pass the sunshine thru to make it more suitable for normalizing the body functions.

Suitable light-filters can be made from leaves. Sure, yellow autum leaves are more effective than green ones. Vegetable fabrics of suitable weave and colors may also be usel. Vegetable silk in "powder blue" or old-gold shades is one of the best, but the filters must be made to "fit" each individual and each condition.

WHAT MOTHER LOVE WILL DO

Dear Mr. Leon de Aryan:

This incident tells how a mother Sparrow willingly gave up her share of food for little one. I did my writing in my bedroom of our house in Toronto, Ontario, (where we resided from 1920 to 1936), outside of the window was the verandah roof. One July evening, 1935, I heard Buster, our good Collie-St. Bernard Dog, bark, and looked out to see what the matter was, saw him barking at a dog who entered our Garden. Incidentally, I noticed a Family of 3 Sparrows (Mother, Father and their Offspring not quite full-grown) feeding on 2 pieces of bread on the said roof. There must have been three bits as I was just in time to see the Father take a piece from the young bird. Meanwhile, the Mother Sparrow had her back to the other two and did not witness what had occurred, was satisfying her hunger with the other piece from which a large bit became detached and fell off the roof leaving a fragment in her beak. She was just going to consume it when somehow or other she became aware of the plight of her little one which was fluttering its wings endeavouring to make known its predicament; without any hesitation she went and gave her only bit of food to it, and made sure that it was fully enjoyed.

What an example for all Parents to follow, and also a great Lesson of Love for us all to learn and benefit by, especially in these days, from that Parent Bird. No Sermon in Church could have been more dynamic, to me, than this touching incident. Any deed of kindness fulfilled even by the lowliest of God's Creatures is a deed that draws us nearer to God, our Heaven ly Father!

The vast majority of people think that we, who give our Services or Lives on behalf of God's Creatures, should consider our Fellow Human-beings first. It is quite evident that the said people do not or have not yet begun to realize that Creature Welfare Work is most vitally as well as inseparably connected with the Spiritual Development of Life of Mankind, and that we active Creature Lovers cannot successfully eliminate or abolish legal, domestic and commercial cruelty **until** we inculcate the Spirit of Love in the Minds or Hearts of Children, Women and Men, and also have the realization of being our Brothers' Keepers!

Dr. Albert Schweitzer, the noted Missionary of Africa, expresses his profound conviction thus: "Anyone who has accustomed himself to regard the Life of any living Creature as worthless is in danger of arriving at the idea of worthless Human Lives, the idea which is playing so disastrous a part of the thought of our time!"

"Habits of cruelty towards Creatures lead to the exercise of cruelty to Human Beings," is the pertinent statement of Sir Samuel Romilly.

A Challenging Truth: "No Human-being living would like to endure the insults, distress, and unbearable pain which are inflicted mercilessly on God's handicapped and defenseless by ignorant, cowardly, and indifferent Humans!"

As there are more letters to write I must close, trusting the enclosures will be of Service to one and all. If you see anything in my letters which, you feel, would be of Help to your Work and the Cause, you are most welcome to use it in any form or at any time you desire; every little bit helps, does it not? Wishing you continued encouragement and true fundamental Progress in your efforts.

Yours sincerly —CLIFFORD PRATT
5863 Cote des Neiges Road, Montreal,
Quebec, Canada

WERE YOU THERE?

You probably can't recognize yourself in this picture, but it does prove one thing . . . . that lots and lots of San Diego county people attend the annual Christmas electric show in Balboa Park. There'll be another this year, a big six day affair from Tuesday, November 28th to Sunday, December 3rd. And it's all free.

BEYOND WAR

By Karl Yens
(Laguna Beach, Calif.)

The world thinks of an artist as one who does something exceedingly wonderful and great.

She believes that he is someone who must know a good deal more.

With prudent shyness she generally approaches him! sometimes even admires him in exaggeration. Not often is she bewildered by not understanding him at all, and occasionally believes she easily comprehends him but rarely enough does she encourage him with gratifying spiritual assistance and with material rewards.

The eminent artist usually can point back to a long period of struggle and of self denial. Nothing in nature and in human activities escapes him which does not inspire him worthily of visualization. We admit, his masterly creations grasp us or keep us spellbound. If we see from his hand a flower depicted, a plant, a tree, a landscape, or the restless ocean, an acting animal, a human being in whatever relation to life, then his ideology takes hold of us. His art is the sound—the breath—the offering of the creative spirit of the entire universe, or you may call it, the sublime elemental, eternal force of Divinity.

Then let us, the recipients of the artist's profoundest loving worship of harmony and peace, liberated of all persuasions of hate, share joyfully a part of our wordly abundance with him, as long as he lives in our midst. Let us lighten the burden of his earthly struggle while he gathers for us ambrosia.

And—hark, hark! He is worthy of our ardent protection against the slumbering only slightly restrained harmful imperfections of human nature.

War between people of the highest culture seems to be incompatible with the basic principles of art. If honor and liberty of a nation have to be defended, Philosophy holds in its treasure-box the solution.

"Peace is the crown of wisdom,
Wisdom is the foundation of happiness".

MARRIAGE LICENSES GAIN IN NEVADA, ARIZONA

RENO,—Western Nevada communities and Yuma, Ariz., reported California's recently enacted law requiring premarital blood tests has nearly doubled marriage license sales.

There were 1327 licenses issued here last month compared to 733 in October of last year. Yuma reported 1103 in October, 1939, and 596 in the same month a year ago.

How True !

Woman—Doctor, I want you to help my husband.

Doctor—Well, what's the matter with him?

Woman—He's worrying about money.

Doctor—I'll relieve him of that.

democracy

By Charles H. Ingersoll
(Of Dollar Watch Fame)

NEW YORK, (Radio Broadcast),—

Lindberg says — and I think very wisely — that if our democracies had behaved as such at Versailles, and had for twenty-five years since been making any study of the meaning of democracy, and trying to demonstrate it, we would then be justified even in doing some fighting for it. But tragically sad is the story of democracy. We have to try very hard to get any line on the fact that it means first no monopoly or special privilege; and that half our wealth has drifted into these forms, that impoverish our masses and ripen them for war. And also that sailing under the democratic flag is now the cheap communistic democracy that has displaced individualism with regimentation and burocracy. It is this garbled democracy that is fronting for one side in a contest for empire. This is what the current sentiment or hysteria, calls Lindbergh imperialism.

Ingersoll

"Gems from Henry George" is the title of a little gold mine of sciense and philosophy that should be reprinted and expanded. Here is a sample gem that, interpreted and used in our present muddle, would indeed be of priceless value — especially to the biggest owners of capital, whose fate is bound up in that of their workers and their customers the ultimate consumer — 130 million of them. George says at pp 115 Progress and Poverty, in referring to confusion of the great cultivators of science, Smith and Ricardo, as they dug their way through the rudiments of the Master Science of Economics, "They use the term 'natural wages' to express the minimum on which laborers can live, when, unless injustice is natural, all the laborer produces should be held as his natural wages!" To the industrialist not yet up in "the dismal science" a word is needed to say that this word ALL means all of the residue after paying off capital, which in this new technic, is the assistant of labor.

A Rift in the Lindbergh Family is Among the last casualities of a sort of synthetic war: and though it is sometimes fatal to take part in a family quarrel, I can't restrain myself from siding with the Colonel. This is on the particular point of our sentiment for **the democracies.** We haven't got rid of the idea of a quarter century ago, that somehow a worldwide democracy can be promoted by this war. Building democracy out of such material as British imperialism and landlordism, can but produce a highly diluted kind of democracy. So, Mother Morrow, why get sore at Lindy for being frank about this? The fact is that our sentiments are ruling, and they are with the allies, as they were before. And in war time the wise conventionalist will stay in line with sentiment. "When the tribe goes to war. . . . . !"

The Chamber of Commerce proclains that we neither want war nor the profits thereof. "He voices," the cynic, may say, "Wisdom?" perhaps. But all the Chamber members and all their 125 million workers and customers consumers, will feel more comfortable if we have normal business volume and full employment, even if they come from war, and even if war inflation robs everyone of the bulk of gains. This is wrong, of course, but human. And it shows how war has the Chamber and other popular influences working for it, in spite of sentiment against, under our present economic set-up. Prosperity is the only remedy for war, and poverty its only support. With all the brakes (taxes) removed from prosperity, business would be so busy, it would have no time even to talk of war. And this preventive can be as quickly applied as we can see basic monopoly, as the only natural source of taxation.

de Aryan Comments

(Continued from Page One)

in a class room can find out for themselves and decide whether they want to find out for themselves, they have grown up and are the misfits they are today after graduation. What we need in education is more liberty for practical school teachers to teach from their own fount of experience and observation and doing away with those newfangled jitterbugs superintendents, communistic experimentators and perverters of logic. Let the school teachers teach and leave them alone. They know more about the children than the higher-ups, who have no direct classroom contact everyday in their lives.

Red Cross Racket

The Red Cross is now asking you to make donations. We remember reading in the papers during the flood disaters in eastern states some two years or so ago, where the Red Cross was lining up the victims of the disaster and refused to take care of them unless they were first vaccinated and took shots to be allegedly immunized against typhus, diphteria and such.

If you are interested to force people to be vaccinated and inoculated before they are fed and housed in time of disaster by the Red Cross, of course, you ought to contribute. But if you revolt against the practice, then you will be glad to know that the Christian Science Church and the Quakers aid societies established their refugee stations in the affected areas and took care of the victims without forcing them to first submit to treatments by the medical drug combine. Send your contributions to them.

Ham & Eggs

The Ham & Eggs racket received a tremendous setback last Tuesday when California voted 2 to 1 against a dictatorship by their "Genius Engineer-Economist" Roy Owens, who according to a very good cartoon by Fred Wilson in the Union-Tribune, was to have fixed the slot-machine so it would hit the jackpot for everybody everytime. The fact that San Diego city and county defeated the racketeers so thoroughly will free us from these leeches for a while at least.

I am sorry that our county clerk's office permitted the county adressograph plates to be used by the opposition to the racket in addressing those cards signed by Mr. Marston, Whelan, Clark, Bishop Buddy and others, that were sent out at the last hour to all voters. I stopped this practice of using the county addressograph in political campaigns several years ago, because if one group has access to it, all groups must be accorded equal privileges. While I opposed the Ham & Eggers, still I do not consider it fair to deny them facilities, belonging to the county, which their opponets may freely use. Let's be fair above all things and then we will not have Ham & Eggs rackets in the first place. It is unfairness in the economic setup, as well as in political oppression, which has created the conditions where some people work hard all their lives and lose every penny they saved during a man-made depression after a world war.

Dishonesty & War

If we only guarded against being involved in a war again we will lay better foundations for our own future and for our children. Dishonesty, thievery and murder produced the misery and poverty which confused the old folks and scared them to death so that they listened to the blandishments of the Ham & Eggs racketeers and lost more of their savings without any benefits in return.

You remember when six months ago I was the only man in San Diego who spoke in public at gatherings, here before the mike and published the only paper that exposed the Ham & Eggs racket. Nobody dared raise their voice, they were so scared of being boycotted by the old folks. And now look how the state and even San Diego woke up and licked the racketeers 2 to 1. The moral of it is that when you know what is right, for your own sake, be man and woman enough to say so openly and stand with it. Why do we have constitutional rights of free speech and free press, if we crawl into a hole everytime the gang threatens to do us harm and put us out of business?! Did that bunch scare me? They did no more scare me than Gen. Hugh S. Johnson succeeded to frighten me during the NRA crackdown. My paper was the only one in San Diego that did not display the blue eagle and never signed up. If you are a free American, for goodness' sake be one! Why be afraid of anybody? That is the test of free men and women, that in time of stress they do not give up their freedom but exercise it!

Where did the NRA go? Where did the EPIC go? Where are the labor racketeers and the Communists? They threw me in the bay, what of it? They merely advertised me. All knocks are a good boost if you love the truth and stand with it. Who can be mightier than God? And who can make us free but the truth? The moment you give up the truth and accept propaganda in its stead, that's when you start working against your own best interests.

Standard Oil from Venezuela

With your help I was able to start the campaign against Ham & Eggs in San Diego and I stood by the truth and it woke up enough people so the menace of dictatorship is passed. But now an even greater menace faces us. It's propaganda is even more insidious than the Ham & Eggs racket and the Oil Prorate Bill. Did you read in the papers where our Secretary of State, Cordell Hull, has entered into a trade agreement with Venezuela, to cut in half import duties on crude oil and petroleum products from Venezuela? The Governor of Kansas wired a protest stating that it will boost imports to about 175,000 barrels a day, which is more than the daily allowable production for the entire state of Kansas.

So there is the trick, folks. They told us to vote for No. 5 to cut down production and put the independents out of business, while the major oil companies had it all fixed up already to import oil from their wells in Venezuela and other Latin American fields. These burocratic measures, to make the government regulate industry, always works against the common man who has to foot the bill and suffer the consequences.

Burocracy Is Socialism

Beware of government intereference. It is nothing else but socialism. Good government is the least government. The more government meddling the more socialism we get. They have socialism in Germany, in Russia, in Italy, in France and in England. We have it here in the Wagner Labor Relations Act. It works to the disadvantage of the employers and destroys employment, which produces more relief burdens and more taxes that hold business down.

The New Deal has failed to cut the public debt, but has almost doubled it. This administration has not done away with unemployment, and now a hysterical situation is being induced to make us forget our home problems and get us interested in the war in Europe, to give the President more socalled emergency powers to regiment industry & draft every man, woman and child on the socalled M day. Did you know that while the neutrality bill was under debate and just to be voted in Congress, suddenly the news was spread in Washington and in the halls of Congress that a British freighter was torpedoed off the coast of New England. No sooner did congress vote favorably on removing the embargo, than the British "official" news were given out that the freighter was safe. Which goes to show that we are to be made the cat's paw once more to pay for the European war. And under this hysteria of a man-made emergency we are to give up all our civil liberties and submit to regimentation on that future M day. This is the danger to democracy that confronts us. And I shall devote my energies to expose this menace as earnestly as I exposed the dictatorship of Ham & Eggs. Dictatorship is dictatorship, whether in California or whether our dictator is to reside in Washngton, D. C. We have no business giving up our liberties to pay for European power politics and its murderous aftermaths. Let's mind our own business. I hope you will stand with me and help me expose this national danger to America as you helped me expose the Ham & Eggs racket.
